

Surge Problems?

Complete Surge Protection.

Service Entry Devices provide heavy duty protection for valuable hard-wired appliances, such as refrigerators and stoves.

Plug strips provide sensitive home electronics equipment—such as computers, televisions or stereos — with protection that store-bought devices can't match.

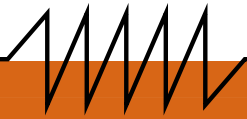

Uninterruptible Power Supply Systems not only protect computers from electrical disturbances but also provide battery backup so data won't be lost.

For the right products to protect your valuable home electronics and appliances—and a warranty to give you peace of mind—ask us.

We're your power professionals.

Surge Problems?

Complete Surge Protection.

Don't put your trust in store-bought power strips.

For the right products to protect your valuable home electronics and appliances—and a warranty to give you peace of mind—ask us.

We're your power professionals.
